10	Users & roles	Super Admin / Admin	Employee hierarchy, permissions, check-in eligibility, passwords	Link to /team

Card-by-Card Operational Guide

1. System Notifications

Master Switch

KIA KARTA HAI (PURPOSE):

Yeh company-wide **Global Master Switch** hai. Is se poore CRM ki tamaam in-app bell notifications, sound alerts aur browser Web Push notifications ko ek click me mute ya turn on kiya ja sakta hai.

KAB USE KARNA HAI:

- **Bulk Lead Import:** Jab hazaron historical leads Excel ya Sheet se import ki ja rahi hon, isko mute kar dein taake agents ke mobile par bar bar be-fuzool notification popups na jayein.
- **System Maintenance:** Server restart ya testing ke doraan mute karein.
- **Normal Routine:** Is switch ko hamesha ON rakhna chahiye taake alerts foran pohonchein.

KESE CONFIGURE KAREIN (STEP-BY-STEP):

1. Card par click karein.
2. Checkbox "*Enable system notifications and push alerts*" ko check (ON) ya uncheck (MUTE) karein.
3. Dark button **"Save notification settings"** dabayein.

> **Important Rule:** Mute hone ke bawajood leads ka aana, round-robin assignment aur background jobs bilkul normal chalti rehti hain; sirf screen alerts khamosh rehte hain.

2. My Alerts (Personal Subscriptions)

Personal Preferences

KIA KARTA HAI (PURPOSE):

Har manager aur agent apni marzi se select kar sakta hai ke usko kin specific events ki notification chahiye (maslan jab new lead assign ho, customer reply kare, follow-up overdue ho, ya quotation send ho).

KESE CONFIGURE KAREIN (STEP-BY-STEP):

1. Card par click karein.
2. Select karein: "*Everyone in my department*" (Managers ke liye) ya "*Only my leads*" (Agents ke liye).
3. Jin events ke alerts chahiye unke checkboxes tick karein aur **"Save alert preferences"** dabayein.

3. Proof Storage (Cloudinary Quota Monitor)

Cloudinary Free Tier

KIA KARTA HAI (PURPOSE):

Volt On CRM me fraud rokne ke liye har call attempt par screenshot ya audio recording proof mandatory hoti hai. Yeh proofs Cloudinary ke private encrypted cloud me save hotay hain. Yeh card live MB/GB usage monitor karta hai.

STORAGE FULL HONE PAR KYA KAREIN:

1. Card open karke **Usage Bar** check karein.
2. Storage free karne ke liye **"Clear Old Proofs (Older than 90 days)"** click karein.
3. Confirm karne par Cloudinary se puraani images delete ho jayengi, jabke CRM database me call ka time, date aur remarks hamesha mehfooz rahenge.

4. Database Storage & Backups (Atlas M0 & Google Drive)

OAuth 2.0 & M0 Monitor

KIA KARTA HAI (PURPOSE):

MongoDB Atlas M0 Free Tier ka **total 512 MB shared limit** hota hai. Yeh module Main DB (`volton_crm`), Dev DB (`volton_crm_dev`), aur Backup DB (`volton_crm_backup`) ka combined MB size live gauge me dikhata hai. Sath hi Google Drive me direct backup upload karta hai.

CHAR AHAM FEATURES:

- **Cluster Storage Gauge:** Live MB bar (e.g. `12.37 MB / 512 MB`) aur individual databases ka hissa.
- **1-Click Wipe:** Dev aur Backup DB ko 1 click me khali karke Atlas space reclaim karna.
- **Google Drive Backup:** Direct `voltonsolarenergy@gmail.com` ke Google Drive folder *VoltOn CRM Backups* me 15 GB free quota ke tehat automated JSON snapshots upload karna.
- **Data Pruning:** Purge All Junk Leads button jo dead leads ko delete karke space bachata hai.

GOOGLE DRIVE BACKUP KESE KAREIN:

1. Pehle **"1-Click Connect Google Drive"** dabayein aur apna Gmail allow karein.
2. Green badge aa jayega: **OAuth 2.0 Connected (15 GB Quota)**.
3. Button dabayein: **"Backup All Leads to Google Drive"** ya **"Backup Full Database to Google Drive"**. File direct Drive me save ho jayegi.

5. Google Sheets (Inbound Lead Sync)

Cron Tick: 60 Seconds

KIA KARTA HAI (PURPOSE):

Har 60 seconds me company ki Google Sheets se nayi leads pull karta hai. Trading aur Installation dono departments ki alag alag sheets connect ho sakti hain.

KESE SETUP KAREIN:

1. Google Sheet open karke URL se Spreadsheet ID copy karein.
2. Card me **Spreadsheet ID** aur **Tab Name** enter karein.
3. Department select karein (Trading ya Installation).
4. Columns map karein (Customer Name, Phone, City, Monthly Bill/kW) aur **"Save Sheet Source"** click karein.

> **Anti-Fraud Rule:** Har lead SHA-256 fingerprint se check hoti hai; duplicate submissions existing lead ki activity timeline me add hoti hain, duplicate lead create nahi hoti.

6. Meta Lead Forms (Facebook & Instagram Ads)

Real-time Webhook

KIA KARTA HAI (PURPOSE):

Facebook aur Instagram Lead Ads se aane wali leads bina kisi paid service (jaise Zapier) ke seedha **2 se 3 seconds ke andar** CRM me create ho kar checked-in agents ko assign ho jati hain.

KESE SETUP KAREIN:

1. Meta Business Suite me webhook URL set karein: `https://crm.voltonsolar.com/api/webhooks/meta-leads`.
2. Settings card me Meta Form ko department ke sath map karein:
   - Rooftop Systems Form → **Installation**
   - Wholesale Panels Form → **Trading**

7. WhatsApp Numbers (Meta Cloud API)

Coexistence Mode

KIA KARTA HAI (PURPOSE):

Company ke official WhatsApp Business API numbers connect karta hai. **Coexistence Mode** ke zariye number agent ke physical mobile phone par bhi chalta rehta hai jabke CRM parallel me chats aur status track karta hai.

8. Appearance (Theme Customizer)

Instant Live Refresh

KIA KARTA HAI (PURPOSE):

Poori company ke CRM ki theme aur branding colors badalne ke liye. Presets (Volt On Gold, Emerald, Sapphire, Slate) ya Custom Color pickers provide karta hai. Built-in engine contrast khud calculate karta hai taake text hamesha saaf parha ja sake.

9. Working Hours (Office Schedule & Fair SLA)

Pakistan Standard Time (PKT)

KIA KARTA HAI (PURPOSE):

Company ke office khulne aur band hone ka time aur working days define karta hai.

NIGHT HOLDING QUEUE PROTECTION:

Raat ko aane wali leads (e.g. 11:30 PM) ko hold kar liya jata hai aur agle din subah 9:00 AM par agents ke check-in karte hi round-robin me release kiya jata hai. Is se agents ka 15-minute response SLA be-wajah fail nahi hota.

10. Users & Roles (Team Management)

Shortcut to /team

KIA KARTA HAI (PURPOSE):

Yeh card seedha `/team` page open karta hai jahan naye users (Agents, Managers, Field Agents) add kiye jate hain, unki department assignment set hoti hai, aur round-robin me check-in eligibility toggle ki jati hai.
